

Instructions to Authors

The Global journal of Pharmaceutical Research (www.tgjproline.com) is a bimonthly published online Journal, which is going to publish innovative research papers, reviews, mini-reviews, short communications and notes dealing with Pharmaceutical Sciences (Pharmaceutical Technology, Pharmaceutics, Biopharmaceutics, Pharmacokinetics, Pharmaceutical/Medicinal Chemistry, Pharmacognosy and Phytochemistry, Pharmacology, Pharmaceutical Analysis, Pharmacy Practice, Clinical and Hospital Pharmacy, Bioinformatics and Biotechnology of Pharmaceutical interest. All manuscripts are subject to instant peer review. Journals of high quality (**not previously published and not under consideration for publication in another journal**) will be published in due time.

Manuscript format	The preferred format of all manuscript is MS World Version 6.0/95 or a higher version in Times New Roman font. Illustrations (figures) and images must be inserted in the manuscript at the position they should appear when published.
Preparation of manuscript	Mode of Presenting Paper is English. Each manuscript should be typed single-spaced on A4 (8.5"×11") paper size with 1 inch margins. It should be arranged in the following order: Title, Abstract, Keywords, Introduction, Materials and Methods, Results, Discussion, Conclusion, Acknowledgement and References.
Title Page	Title page should contain title of the paper in bold face, title case (font size 14), names of the authors in normal face, upper case (font size 12) followed by the address in normal face lower case. The author to whom all correspondence be addressed should be denoted by an asterisk mark. The title should be as short as possible and precisely indicate the nature of the work in the communication. Names of the authors should appear as initials followed by surnames. At the bottom left corner of the title page, please mention "*Address For correspondence" and provide a functional e-mail address. Address of the corresponding author to whom all correspondence may be sent should be given only if it is different from the address already given under authors' names.
Abstract	Should start on a new page after the title page and should be typed in single-space to distinguish it from the Introduction. The abstract can be written as one large paragraph and should contain objectives and scope, a description of the methods used, a summary of the results, and a statement of the main conclusions.
Keywords	Provide five to six appropriate key words after the abstract.
Introduction	A short introduction of the research problem followed by a brief review of literature and objective of the research.
Material and Methods	Describe the materials used in the experiment, year of experimentation, site etc. Describe the methods implied for collection of data in short.
Results and Discussion	This segment should focus on the fulfillment of stated objectives as given in the introduction. It should contain the findings presented in the form of tables, figures and photographs.
References	Should be numbered consecutively in the order in which they are first mentioned in the text (not in alphabetic order). Identify references in text, tables and legends by Arabic numerals in superscript in square brackets. References cited only in tables or figure legends should be numbered in accordance with the sequence established by the first identification in the text of the particular table or figure.
Journal Articles	Torchilin V.P., "Structure and design of polymeric surfactant-based drug delivery systems", Journal of Controlled Release, 73, 137-72, 2001.

A Book	Kalia AN: A Text Book of Industrial Pharmacognosy. CBS Publishers & Distributors, First Edition 2005.
A Chapter in a Book	Nadkarni KM: Indian Materia Medica. Popular Prakashan, Mumbai, Edition 3, Vol. I, 2000: 242-246.
Abbreviations, Units, Etc	As per rules defined in the IUPAC Manual of symbols and terminology for physicochemical quantities and units.
Short Communication	The journal publishes exciting findings, preliminary data or studies that did not yield enough information to make a full paper as short communications. These have the same format requirements as full papers but are only up to 10 pages in length in total. Short Communications should not have subtitles such as Introduction, Materials and Methods, Results and Discussion- all these have to be merged into the running text. Short communications preferably should have only 3-4 illustrations.
Review Articles	Should be about 15-30 pages long, contain up-to-date information, comprehensively cover relevant literature and preferably be written by scientists who have in-depth knowledge on the topic. All format requirements are same as those applicable to full papers.
Submission of Manuscript	All manuscripts (must be in English and in MS Word format) and should be submitted via our online system or through e-mail at editor@tgjpr.com as an attachment for quick evaluation.
Copyright and Permission	Submission is a representation that the manuscript has not been published previously and is not under consideration for publication elsewhere. Authors would be required to sign a form (to be supplied by the Editor) transferring copyright before the manuscript can be published.
Ethical Matter	Authors publishing results from in vivo experiments involving animals or humans should state whether due permission for conduction of these experiments was obtained, from the relevant ethical committees, in the Materials and Methods section. In addition, authors wishing to publish research work involving human studies should also send a notary verified letter of approval from the Ethical Committee or the Institutional Review Board.

Authors are requested to send their research articles strictly according to the given format mentioned in the guidelines to the authors.
